**EXPERIENCE**

**Flextronics** - Austin, Tx                                     January 2022- Present
**Industrial Designer**
- Designed high-stakes and ergonomic touch points in conjunc
  tions with electrical and mechanical engineering teams.
- Defined a product's use case with storyboards and user personas
  to better understand a products shortcomings and goals.
- Developed renders and animations to quickly communicate a
  products function and construction to stakeholders.
- Worked closely with the client to communicate design
  intent and ensure our understanding of requirements

**Kendall Design LLC** - Austin, Tx                         October 2020- Janurary 2022
**Freelance Industrial Designer**
- Created patentable designs to launch new products while
  working closely within a clients budget and idea.
- Created 3D models using Solidworks and Fusion360
- 3D printed and tested designs to ensure correct function
  and feel
- Collaborated with engineers to bring the design to market
  in a cost efficient and timely manner.

**Dell** - Austin, Tx                                        June 2018 - September 2020
**Industrial Designer, Contract through Talentwave**
- Worked within the commercial design team in the fixed
  and mobile computing sector.
- Generated class-a surfaced 3D models using Solidworks
  and Creo, and then created photoreal renderings in Keyshot
- Created photorealistic renders of concept designs

**Gulfstream Aerospace** - Savannah, Ga                        June - September 2017
**Industrial Design Intern**
- Assisted in the creation of full scale interior mockups for the G700
- Created 3d models in Solidworks to be printed
- Produced and presented a final project
- Designed and animated concepts for a new cockpit interface

**EDUCATION**

**Savannah College of Art and Design**                              March 2018
MA in Industrial Design

**The University of Texas at Austin**                                May 2016
BFA in Design, Focus in Industrial Design

**QUALIFICATIONS**

**Software**                          **Design skills**
Solidworks                            Design Research
Creo                                  UX Design
Keyshot                               Storyboarding
Adobe Creative Cloud                  Systems Design
